
Professional Summary

Consultant with 4+ years of experience at Intellect Design Arena, specializing in implementing the Wealth Product. I have played a key role in the **development of the SBI YONO Wealth Mobile Application**, delivering secure, high-performance features for wealth management clients. Skilled in Java 8, Angular, RESTful API, Hibernate and Spring Boot, I develop robust, scalable applications for wealth management clients. With a solid foundation in front-end and back-end development, I excel in managing the entire software development lifecycle to deliver high-quality solutions.

Experience
